SUMMARY

Based on primary-age children, this book brings William Shakespeare's "Twelfth Night" to them, recognizing that children, properly guided, will take to Shakespeare's characters and stories like "birds to water"; in the process they find their inner voices, they collaborate, they improvise, and they communicate. Illustrated with pictures, letters, and music created by young students, the book offers a unique way of teaching writing and reading skills by involving students in Shakespearean plays. (Contains suggestions for use by teachers and parents.) (CB)
